### Join the action

The practice of law in a reputable firm such as ours has its demands. Our lawyers consistently give their very best and expect our stagiaires to do the same, whether they are pleading before the courts, researching jurisprudence or drafting legal proceedings.

We focus on selecting candidates whose potential we believe in. Since we plan on investing considerably in their future, we look forward to a constructive and lasting relationship.

Upon reception each application received from potential candidates is reviewed. Academic results are obviously important, but they don't tell the whole story.

That's why we also take into consideration your sense of responsibility and your autonomy, as well as your accomplishments in sports and culture, or your commitment to a social cause.

Instead of a rigid structure, DE GRANDPRÉ CHAIT offers support and collaboration: all of our lawyers, are always available to guide you, encourage you and exchange ideas with you.

Our work environment is both welcoming and stimulating. We want each and every articling student to benefit from and participate actively in the challenges provided from the first day onward.

Reflective of our core values, we place a great deal of importance in the professional and personal growth of all the members of our firm. We also understand that there is more to life than just work.

Articling at DE GRANDPRÉ CHAIT not only allows you to develop the skills and knowledge that are essential to your professional development, but will open the door to building long-lasting relationships.
